Can Civil Society Prevail?

Reports from Europe, Kosovo,
Iran and Other Nations

Saturday, April 5, 2008
2:00 – 5:00 pm
Concord House,
1407 Chapala St, Santa Barbara

Many global and local social change initiatives are being conducted that escape or are distorted by news media sound bytes.

UCSB Global Studies graduate students will offer us glimpses from many parts of the world about how civil society initiatives are enhancing human well-being despite challenges of the status quo.

Question and answer dialogue will follow the presentations.
