

Santa Barbara Ecological Education Coalition *presents...*

**Creating Our Environmental Future:
Using Imagination and
Intelligence for Planetary Survival**

Public Lecture: Monday, November 24, 2008

7:00 – 8:30 pm

The Karpeles Museum

21 West Anapamu St, Santa Barbara

Presenter: Ernst von Weizsäcker

Dr. Ernst von Weizsäcker, Dean of the Bren School of Environmental Science and Management at the University of California at Santa Barbara, will lecture on creating our environmental future. Research findings offered by a team of engineers and designers committed to environmental sanity have just been published in a new book, *Force*, edited by Dr. Weizsäcker. Global warming, labor productivity gains through sustainability, and whole systems construction are some of the topics to be discussed by this pioneer in green thinking, member of the Club of Rome, and former member of the German Parliament. His other books include *Earth Politics* and *Factor Five*. Free event.

Information: Philip Grant 845-7222
