# Global Inequality, Ecology and the Search for Justice

**Lecture: Wednesday, December 3, 2008**

**7:00 pm**

**La Casa de la Maria**

**800 Bosque Road, Montecito**

## Lecturer: Wolfgang Sachs

Does living in harmony with natural systems suggest how we might achieve justice and fairness in our relations with each other? Join one of the world's leading eco-philosophers as he explores the link between ethics and sustainable living.

Dr. Sachs is Senior Research Fellow at the Wuppertal Institute for Climate, Environment, and Energy in Germany, a member of the Club of Rome, and author of numerous publications, including *Fair Future: Limited Resources and Global Justice*, the *Development Dictionary* and *Planet Dialectics*.
